MEET YOUR TEAM

Hadley Stephens

Executive Director

✉ **hadley@rollinginfaith.com**

Hadley Stephens is a graduate of Murray State University with a bachelor's degree in Nonprofit Leadership Studies and a minor in Special Education. Hadley is dedicated to creating spaces for people with disabilities to thrive in the four river region.

Alison Jones

Assistant Programming Coordinator

✉ **alison@rollinginfaith.com**

Alison Jones has a longstanding history of serving the disability community. With a bachelor's degree in psychology and a certification in Special Education, Alison, develops the curriculum for our Holland House participants and ensures that each participant's individual needs are being met.

KNITTED TOGETHER

2024 has been an amazing year filled with unprecedented growth and blessings. We have had an increase in our service population, programming capacity, and volunteer involvement.

Our theme for the new year is 'Knitted Together in Love' as we continue to labor together to bring those with disabilities into all facets of our community. I am excited for this next year and am expectant for what God has in store for his people and this organization. We are so thankful to everyone who has labored with us this year as we have made 2024 our most successful year so far.

I look forward to seeing how God continues to mold our organizations and guides each of us as we serve him by serving each other. Thank you for your involvement in making this year a success, I look forward to seeing how God moves in 2025.

BREAKDOWN OF SERVICES

Here is a brief overview of the services we provide to those in the four-rivers region.

01

Placemaker Parties

RIF started serving our community through Placemaker Parties. These events vary in activity & what ages are appropriate based on said activity. Placemaker Parties are free for the families

02

Summer Skills

Summer Skills is an off shoot of our Holland House Day Program. This program is for our reoccurring HH participants & teens age 15 and older. This program focuses on socioemotional development, community exploration, and recreation.

03

Holland House

Holland House is a faith-based day program that aims to create a safe space for adults with intellectual disabilities in the four-river region to maintain the skills necessary to thrive within their communities. This framework allows our participants to grow spiritually/emotionally, educationally, and interpersonally. Allowing our participants to forge a path in the community that is individualized to their specific needs and interests, showing our community the value that people with disabilities bring to all areas of our society.

CLIENT IMPACT SUMMER SKILLS

Our son Bryce is 16 years old and Autistic. Although I would consider him to be social in most circumstances, he was hesitant to attend Summer Skills with Holland House. He was nervous to try something new during his Summer Break from High School.

After the first day that obstacle was out of the way, his anxiety was completely gone. Bryce was all smiles and excited to return the next day. It would be challenging if I had to share his favorite Summer Skills activity. Since he loves them all it changes from one day to the next. However, there are two that stand out in our conversations. He enjoys the Faith based lessons on Chapel days and working at VBS with a local church. He proudly told anyone who would listen, that he helped take care of the 4-year-old class. Although he would be the first to tell you they were loud and wild, he hopes to be assigned this same job next year.

As a mom of a Special Needs Teen, there are some goals that never change. I want him to be safe, included, feel needed and loved. These are met at Holland House. In addition, Bryce loves routine and schedules. The program is well planned, organized and a schedule is given ahead of time so that you can be prepared or prepare your participant should you have that need. This works great for my son who always needs to know what is going on or "what is next".

As we are getting closer to Summer coming to an end, Bryce has already asked if he could attend next Summer as well as other affiliated activities. My answer is yes! We are so Blessed to be a small part of Holland House and cannot wait to see what God has in store for the participants and staff.

Katrina & Greg Strong

Holland House

We were making a move from Western Washington to Paducah KY March of 2023.

While we were excited to start our new chapter in life, we were also focused on finding some activities for our daughter, Dani. Through that process we were introduced to what it is that makes this area so remarkable – its people. Through some research we learned about and contacted Holly with the Down Syndrome Association of Western KY once we arrived at our new home. She invited Dani to an Easter Egg hunt at the Zion Evangelical Church in Metropolis and through that event we were introduced to Rolling in Faith and Hadley Stephens. She described the summer skills program for that summer, and it sounded like something to explore. Dani was hooked! She had the best time our first summer and we were all on board to start the Holland House program in August 2023.

Holland House wasn't just a place to drop off your child for a few hours a day, but instead, were activities centered around creating opportunities for the participants. Dani enjoys continuing education, bible studies, field trips, outdoor activities, crafts, life skills, cooking day, celebrations of holiday, Christmas caroling, and the list goes on. Every day is planned to promote the goals of letting Dani and her new friends be Seen, Known and Loved.

To be so successful at this requires a lot of work and dedication, and Hadley has assembled a team that think outside the box for our young adults, to make them feel loved and a part of the community, and to challenge them to step a bit outside their comfort level. Dani has improved so much in her communications, reading and writing. She has a smile on her face every day and can't wait for the next day. God is Good!! And He is present at Holland House, using Hadley and her team (we call them angels) to focus on and celebrate with His children. Giving all those that get the chance to see them an equal opportunity to get to know them. And from that, we all come to love them. We thank God that he gave us Hadley in this corner of the world, and we thank Hadley for giving us Holland House.
